

CURRICULUM VITAE

VIOREL BARBU

"Al. I. Cuza" University, Iasi, Romania
Bd Carol I No. 11, Iasi
Phone : +4 0232 201217
E-mail: vb41@uaic.ro, vbarbu41@gmail.com

DATE AND PLACE OF BIRTH: June 14, 1941, Deleni - Vaslui, Romania

EDUCATION: 1959-1964, Faculty of Mathematics, Al.I. Cuza University, Iasi; 1969, Ph.D. Al.I. Cuza University of Iasi.

ACADEMIC POSITIONS: Professor, "Al. I. Cuza" University, Iasi, 1980-2011; Research position with Octav Mayer Institute of Mathematics of Romanian Academy, 1990-present.

VISITING POSITIONS: C.N.R., University of Rome, Italy (1970,1976); Purdue University, USA (1983, 1986); University of Cincinnati, USA (1991); INRIA, Rocquencourt, France (1993); Scuola Normale Superiore, Pisa, Italy (1992); Ohio University, USA (1992,1995,2000); Université Paris VI, France (1994); University of Trento, Italy (1998,2008,2012); University of Virginia, USA (2005); Bonn University, Germany (2006); Bielefeld University, Germany (2007-2013).

HONORS AND AWARDS: Member of the Romanian Academy, since 1991; Member of the European Academy of Sciences, since October 2008; Honorary member of the Moldovan Academy of Sciences (2001); Doctor Honoris Causa (Honor Degree) of University of Nebraska at Omaha (1993).

ADMINISTRATION: Chairman of Department of Mathematics of University of Iasi (1976-1981); Rector (President) of University of Iasi (1981-1989); Director of Octav Mayer Institute of Mathematics of Romanian Academy in Iasi, 1990-2011; Vice President Romanian Academy (1998-2002); President of Romanian Academy Iasi Branch (since 2001).

EDITORIAL BOARDS: *Numerical Functional Analysis and Optimization*, (Taylor&Francis, USA), *Journal of Differential and Integral Equations* (USA), *Advances in Differential Equations* (USA), *Revue Roumaine Mathématiques Pures et Appliquées* (Romania), *Set-Valued and Variational Analysis; Theory and Applications* (Springer), *Journal Optimization Theory and Applications* (Springer).

RESEARCH ACTIVITY: infinite dimensional differential equations, mathematical control theory and stochastic differential equations.
